Personal statement

A bright degree qualified professional within civil engineering who holds chartered status, and has a proactive approach along with an ability to adapt to changing scenarios. Peter acts in a professional and responsible way at all times, and can maintain excellent working relations with clients, designers, site managers, sub-contractors, suppliers and the general public. His extensive experience allows him to structure and prioritise work effectively through close cooperation with other team members. He is now looking for a suitable position with a company that offers excellent career development opportunities and interesting engineering challenges.

Employment history

Construction Company - Birmingham

CIVIL ENGINEER April 2009 – Present

Responsible for the preparation of scope documentation, technical specifications, tender documentation and evaluation of 3rd party engineering design documents, and provision of technical input to the project as and when required. Also in charge of the daily management of all operational projects including meeting work schedules in terms of HSE & quality.

Duties

- Monitoring design errors and make recommendations to stop their reoccurrence.
- Supervising tendering procedures and putting together proposals.
- Assisting with the development of more junior engineers.
- Estimating quantities and cost of materials, equipment, or labor to determine project feasibility.
- Scheduling material and equipment purchases and delivery.
- Testing soils and materials to determine the adequacy and strength of foundations, concrete, asphalt, or steel.
- Compiling, checking and approving reports.

Local Authority – West Bromwich

CIVIL ENGINEER October 2007 – April 2009

Surveyors - Dudley
