PERSONAL STATMENT

A strong conceptual thinker who has a keen interest in all things related to the Internet. Rachel has the ability and experience needed to design and execute complex software projects for a diverse variety of users. She is committed to having an impact on the future of any company that she works for, and possesses the enthusiasm and commitment to learn and develop her career within a fast paced and growing business. She has a track record of building fluid and dynamic interfaces that are user-friendly, and which positively impact on people's lives. Right now she is looking for a suitable opportunity that will not only take her career to the next level, but will also allow her to work alongside a very specialised team.

AREAS OF EXPERTISE

WEB DESIGN SKILLS

- Turning broad, conceptual ideas into highly creative visual websites.
- Comprehensive knowledge of web-based programming languages like PHP, MySQL, & MS SQL.
- Keeping up to date with current and emerging web technologies through relevant blogs, publications and events.
- Deep understanding of computer hardware parts.
- Integrating new technologies into existing web properties.
- Experience of Design Patterns, Frameworks and Architecture.
- Experience of Object-oriented Software Development Methodologies.
- Working knowledge of SQL.
- Previously worked on high volume websites across a wide variety of desktop and mobile browsers.

PERSONAL

- Always positive, regardless of the challenge ahead.
- Willingness to work with emerging alternative technologies.
- Developing professional relationships with customers.
- Excellent communication and personal-interaction skills.
- Can work in fast-paced environment while maintaining attention to detail.
- Willingness to take ownership of projects and see them through to completion.
- Communicating ideas clearly to both technical and non-technical audiences.
