PERSONAL SUMMARY

Maxine is an expert at maintaining a high level of process compliance and at deciding whether goods are fit for purpose. She has extensive quality inspection experience gained within a manufacturing environment. In her current role she performs stress testing that measures how products stand up to impact, temperature, and other factors. Through her career she has always kept her expertise and knowledge of relevant legislation up to date. Right now, she wants to join a company that gives everyone who works here the opportunity to realise their full potential and progress in their career.
